CEMENTAID

The Way to Better Concrete

Form Oils, Curing & Bonding Agents

CALCURE CR

High Efficiency Concrete Curing by a single spray application, without external covering or continuous water application

EFFECTS:

Calcure CR is a special formulation incorporating chlorinated rubber which seals the surface of freshly placed concrete, inhibiting moisture loss and providing high efficiency curing. Calcure CR complies with ASTM C309-66.

**WHERE
RECOMMENDED:**

All concrete surfaces which will be subject to traffic during the curing period, and areas to which standard curing methods would be difficult or uneconomical. After the curing period, preferably at the end of the job, an additional application of Calcure CR will seal the dry concrete against dusting and facilitate cleaning.

CONTACT CEMENTAID FOR APPLICATION SERVICE

CAUTION:

Do not specify Calcure CR or other membrane curing compounds when surface hardeners such as Cementaid "DIAMITE" are specified to be used as penetration of these treatments would be impaired. In such cases, specify water, damp sand or plastic sheet curing.

Detailed information on special uses, test results, projects previously using products, and special recommendations are available from your nearest [Cementaid Technical Office](#).

For application Rega pneumatic knapsack spray is recommended with No. 9, 10 or 11 fantail nozzles. Equipment should be cleaned with solvent based thinners such as Xylol.

SPECIFICATIONS

All concrete shall be cured by a liberal application of Calcure CR sprayed on to the surface as soon as possible after finishing or removal of forms at the rate of 5-7 square metres per litre depending on efficiency required.

**INDUSTRIAL FLOOR SPECIFICATIONS - GEL CONTROL AGENT - ANTI-CORROSION
IMPREGNATIONS - OIL & SOLVENT PROOFING - WATERPROOFING - RAPID HARDENING
RETARDING - SURFACE TOUGHENING - MORTAR AND DAMPCOURSE ADMIXTURES, ETC.**

The information and recommendations herein are, as a result of experience and testing, accurate to the

best of the seller's knowledge. However, as the proposed use and the circumstances surrounding such use are not known to the seller, it does not guarantee or warrant the product's suitability in any particular instance and shall not be liable for any loss or damage consequent upon any use whatsoever unless the seller has otherwise stipulated the product's suitability for a particular use in writing signed by a Director of the seller.
